

Did you just make a healthy pet decision? Yes, you did!

Hi Janey,

Is your furry companion wiggling around your legs right now? If he knew that you just downloaded the FREE GUIDE TO DOG HEALTH, he would be!

How about the HEALTHIEST TREATS 2021 guide...have you opened it yet? There are so many treats to choose from! (You probably shouldn't tell **him** that)

Did you hear on the news this week about another pet food recall? It seems like they are happening way too often. A company didn't continually check their formula which put pet lives in danger.

That's why you need to be able to trust the people who make your dog's food and treats.

They need to constantly improve, inspect, and collaborate with veterinarians. But most important...*they must have skin in the game.*

They need to have their **own** pets to feed.

Healthy pets start with the healthiest foods and that is what you will find in Grayslake, Illinois, at **Furry Friends Natural Products. They are the creators of Puptastics Naturals Jerky Treats.**

I have a quick question...have you tried these yet? Just a reminder...they come in 5 meaty flavors-

*Beef

*Liver

*Lamb

*Turkey

*Chicken

They contain a beneficial amount of Vitamin E that fights free radicals AND is a natural preservative. And they have only **6 calories** per piece.

Let's peak inside the FREE GUIDE TO DOG HEALTH...hmm, here's a study on the grain free fad. Kristen Nelson DVM, author of "Coated With Fur: A Vet's Life", says, "The grain free phenomenon is a fad from human nutrition. When grain is removed, other ingredients like higher glycemic carbohydrates or fats may be added-and these lead to other issues."

Oh, and here is a section on dental chews and their benefits. Bye-bye dog breath!

You think he's happy now...just wait until you get these treats! www.FuzzyFriendsNatural.com
